

Always the Same

A        D  
I have wandered  
A                E  
down through the years  
A                D  
looking for an answer  
A                E  
that would satisfy

A                D  
time it is deceitful  
A                                E  
the years have come and gone  
A                                E  
in despair I cried aloud  
A                                E  
and he opened up my eyes

G    D    A  
praise his name  
G    D    A  
always the same  
G    D    A  
my God reigns  
G    D    A  
praise his name

I have traveled  
through county, field and farm  
from a city on the river  
to the mountains of the west

looking for someone  
to hold my trembling hand  
to calm the fears inside of me  
and give my heart a rest

many are the ones  
I've met along the way  
with lives of confusion  
I know the pain they face

lost and bewildered  
like sheep, have gone astray  
the Lord has commanded me  
to tell them of his grace

Refrain
