

The Ark

G D
Somewhere in the nighttime
G D
In the woods there is a clearing
G D
the animals come together
G G
in the moonlight they are moving

G D
the hunter and the hunted
G D
follow close behind now
G D
the circle's getting tighter
G
and would you believe it...

If... you...saw...them...

C Am
dance, dance, dance, dance the night
away
C Am
dance for joy as the music plays
C Am
they're having more fun than the ark now
C Am
it's going to be a better world and how

monkeys play the bongos
birds sing the melody
bears do the harmony
and everyone will laugh and
shout as they.....

Refrain

coyote stops a chasing
rabbit stops a running
the music is growing louder
and paw in paw they begin to.....

Refrain

elephants do the two step
the lambs are all blushing
as the lions come a'courting
asking...would you like to.....

Refrain
